despite the sustained scholarly attention that the united nations and international ngos have received in the twenty first century they still remain under researched from a management studies perspective this volume brings together rich analyses of these organizations functioning arguing that they are best understood as intermediaries between international decision making and funding bodies in the developed world and initiatives that take place on the ground primarily in the global south based on current management research this follow up to rethinking international organizations berghahn 2002 provides a wealth of both empirical and theoretical insights along with practical recommendations how these organizations can function more effectively

how do international organizations in the united nations system put together their budgets what is the role of complex principals most notably member states and the complex agents in the bureaucracies of international organizations in budgeting processes and what does a focus on budgeting tell us about the changing nature of the system of international organizations this book provides answers to these questions through a detailed examination of budgeting in the un system the analysis draws on both quantitative and qualitative observations for a total of 22 un system organizations and detailed case studies for the united nations ilo unesco and who the findings

demonstrate the importance of three key organizational outcomes proceduralization routinization and budgetary segmentation as international organizations grapple with managing discord over priorities as a result of complex principal agent constellations contrary to a common view of international bureaucracies as pathological organizations core budget routines are mostly successfully maintained however principal constellations become more complex notably through the rise of voluntary contributions and non state donors budgetary segmentation advances in some cases even leading to the setting up of new international organizations and budgeting and resource mobilization become ever more intertwined as a consequence the capacity of international bureaucracies to fulfil their budgeting responsibilities is stretched to the limits and beyond transformations in governance is a major academic book series from oxford university press it is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions subnational governments and public private networks it brings together work that advances our understanding of the organization causes and consequences of multilevel and complex governance the series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars the series is edited by liesbet hooghe and gary marks of the university of north carolina chapel hill and walter mattli of the university of oxford

standards play crucial roles in many different aspects of today s economy they can define meanings of semantics product interfaces process steps or performance levels interorganisational standards are specifications that define business related semantics and processes which are made accessible to other organisations information systems while modular organisation forms such as supply chain networks demand such standards for higher flexibility xml

based services offer a relatively new technological platform to develop such standards the development of comprehensive interorganisational standards however is far from being completed this book thus answers the questions how interorganisational standards are developed and how different actors should get involved in it the author uses actor network theory to conduct two in depth case studies on ebxml and rosettanet while researchers will find new explanations for the development of interorganisational standards managers and executives will benefit from the strategic implications this book discusses
